What is your opinion?

Today, Mr. Tomáš Blumenstein, Czech Republic Mensa chairman is here

❖ What is your message for EMAG?

I would like to wish all participants to choose from our programme the most interesting points, to have no troubles in Prague - well, enjoy EMAG in Prague!

❖ What Mensa means for you?

I do my best to use Mensa possibilities – broaden my knowledge by excursions, lectures. I got a great experience organizing various events, projects, managing people etc. But first, I appreciate Mensa for meeting many wonderful friends (including my wife).

❖ What other national Mensa we have the cooperation with?

Generally, we are involved in the SIGHT programme and we try to exchange ideas and experience in IBD. We are inspired by the German Mensa or from the Serbian Mensa we have the NTC programme for kindergartens. And, we open our activities and member's area of our web to the Slovakian Mensa. But, I think that our members could use much more the international potential of Mensa.

Welcome to Prague!

Your EMAG team

❖ What contribution do you expect from the EMAG for the Czech Mensa?

It is the large event that attracted new volunteers and it is a huge organizational experience. And we want to introduce interesting projects of Mensa CZ (not only from GC). But mainly I hope that Czech members will join more international activities.

❖ Why you have joined Mensa?

I entered into the Mensa 15 years ago – I was curious, but from the beginning, I found here the pleasant environment, and activities that make sense.

❖ What do you wish the result of EMAG would be?

Good result! It means, people would like it, both participants and organizers would be satisfied at the end. Thank you!
